President Schreiner cited the 7 rules for citizen's comments.

Under citizen comments, Renee Norgaard stated among other things, that the Boards rules for comments are illegal and violates her 1st amendment rights. She brought up the \$5,000 tax issue and President Schreiner immediately asked her to refrain from speaking as this topic is not on the agenda. She argued and said that the Board does not have the right to dictate her content. Schreiner reminded her of the rules he cited and she continued to try and talk about the \$5,000 tax issue and board members being tax cheats and she continued to talk overtop of Schreiner at the same time as he was asking her to refrain her comments and sit down. When she refused to

stop after Schreiner's 3rd attempt, Chief Beckstrand was asked to escort her from the room at which time she sat down and said she was done.

Hal Swenson expressed his opinion that the Board should consider taking citizen comments off the agenda.

Ken Norgaard said among other things, that the last time he was here the board did away with citizen comments and the next month he read in the minutes that they all voted unanimously to allow it. (This statement was inaccurate, as the Board never did away with the citizens comments, although it had been considered in the past and still could be considered again in the future). He also brought up the \$5,000 tax issue at which point President Schreiner hit the gavel and attempted to stop the discussion two separate times, but Ken went on to tell Schreiner that he is violating Supreme Court law and warned Schreiner that he had better be careful with that.

Pat Morrow of MSA was present with the following updates:

MSA has prepared a third preliminary cost estimate in addition to both open-cut replacement and CIPP lining of Landall Ave Storm Sewer

WWTF, INTERCEPTOR & COLLECTION SYSTEM IMPROVEMENTS UPDATE ON WWTF CONSTRUCTION, O&M MANUALS, FISCAL SUSTAINABILITY PLAN

MSA is working with Automatic Systems to optimize the amount of alum dosed each day via the chemical feed pumps. It may eventually be more accurate to replace the existing chemical feed pump tubing with tubing of a smaller diameter, and have Automatic Systems reprogram the pump speed. Recent phosphorus results have indicated that we're in a more desirable range, however. We will continue to work with Dan regarding this.

MSA completed an Operations and Maintenance (O&M) manual for the daily operations and maintenance of the WWTF. The O&M Manual consists of two volumes. Volume 1 contains chapters that document the O&M activities for the facility. Volume 2 consists of all the manufacturer's O&M manuals and related technical data. Hard copies of the manufacturer's O&Ms and related technical data have already been provided and are in the Village's possession. As a result, we provide bound hard copies of Volume 1, but not of Volume 2, due to space considerations.

Two paper copies of Volume 1 will be delivered (via UPS) to the Village by Wednesday, December 11, 2019. An electronic copy of Volume 1 and Volume 2, in addition to the record drawings prepared by MSA, Staab, and Van Ert, are saved to a USB Flash Drive and will be delivered at the Meeting on Wednesday December 11, 2019.

The Fiscal Sustainability Plan, GIS / Collection system asset management plan has been completed and will be delivered to the Village on Wednesday December 11, 2019. This document is supposed to be a living document, to be updated along with any changes to the CMOM or asset management program. We provide this in a 3-ring binder so that it can be easily updated as need be. An electronic version in .PDF as well as Microsoft Word is also provided so the Village can update if desired.

The project will be closed out mid early December. There are a few DNR Clean Water Fund forms and checklists that need to be signed for project closeout. Pat Morrow will have those forms for signature by Bill Schreiner and Dan Kohler. They can sign them at the meeting, and if Dan is not available at the meeting, he can sign them once he has a chance to look over the O&M Manuals.

LANDALL ST. / MCCOMB AVE - STORM SEWER REHABILITATION

MSA submitted PERF & ITAs for the storm sewer on Landall St. and McComb Ave. as well as submitted a WisDOT Multimodal Local Supplement (MLS) program Grant application. We recently heard back from the WDOT (email received Sunday, December 8) that the application was received. The email was just confirmation that WDOT did receive the MLS grant application for McComb Avenue. The next step is to wait and see if they want any additional information about the project. If they don't, and they decide not to fund the project, I believe they will send a letter stating that.

The MLS grant program may fund up to 90% if selected, however the grant program is very competitive. We will keep the Village informed when we hear something.

Bob Rusch was present with an update on the Railroad History project. He wanted to be sure the Board knows he hasn't lost interest in the project, but that it takes time to make sure that he is accurate with his text.

An application for a Special Class B Picnic License by Fish & Game Assoc. was presented to the Board. Moved by Buksa, seconded by Mann to accept the application and grant the license. Motion carried.

The following Election Officials were presented for a 2-year appointment: Tammy Mann (Chief Election Inspector), Judy Cihasky, Ginny Carpenter, Luanne Yanko (Chief Election Inspector #2) and Laurie Schreiner. Moved by Buksa, seconded by Tesch to approve the appointments. Motion carried.

The following resolutions were presented to the Board:
